

## THE SMART COMPACTOR THAT FITS ANYWHERE.

BinPAK Compactors allow a standard container footprint with up to 6:1 compaction ratio, and fits where other compactors never could. Reduces truck traffic & costs, improves neighbor relations, and secures waste from illicit access or dumping.

Designed to fit nearly anywhere, the BinPAK Compactors bring a new level of convenience to a wide range of waste applications, creating a safe, secure, and sanitary solution for pharmacies, convenience stores, housing developments, restaurants & grocery stores, medical and retirement facilities, and any place that needs up to a 36 yard compactor equivalent in a small space.

Perfect for indoor trash rooms, dock access waste containment, facilities with space constraints, controlled substance and drug disposal, and so much more....BinPAK Compactors can be dumped using a standard front-end load dumpster truck. Easy loading height (only 26") make loading a snap, even for ADA applications. And the BinPAK is user-friendly and thrifty, reducing pickups by up to 83%, and providing many benefits.

**We Innovate Waste.**

## PATENTED COMPACTION TECHNOLOGY THAT SOLVES REAL PROBLEMS.

\*SPECIFICATIONS MAY CHANGE WITHOUT NOTICE

### Reduce Overall Waste Cost

High compaction ratio and compact design will reduce monthly costs

### Optimize Recycling Options

Optimize recycling options, by eliminating multiple containers and using the BinPAK for compacting cardboard or mixed recyclables

### Improve Neighbor Relationships

Reduce noisy truck pickups, stop leakage and odors, and eliminate indigent dumpster access.

### Addresses Environmental Concerns

Keep trash, odors and liquids contained, and excludes rats, raccoons, birds, and stinging insects.

### Improve Staff Health & Wellness

With easy loading height of 26", BINPAK compactors make handling a snap, with less lifting and less spillage.

### Prevent Unauthorized Dumping

Secure, fully-enclosed compaction that prevents unauthorized dumping and vandalism.

### Reduce Truck Traffic

By compacting volume, require fewer pickups per month, less congestion and traffic, little disruption to parking areas and more

### Easy Installation Or Relocation

No guides or rails needed, simply connect the electrical plug and it's ready to go. Need to move – unplug, move, and re-plug. Easy, very easy.
