

TRASH ENCLOSURES RE-IMAGED.

Binova has created the ultimate visual screen for enclosing dumpsters and compactors where planning/zoning ordinances make this necessary. Manufactured with a patented design of roto-molded panels, allowing for a realistic stone appearance and superior performance.

EnviroSCREEN Enclosures offer the ultimate visual screen for solid waste, including dumpsters, compactors, handbin corrals, and so much more. As a lower-cost alternative to masonry construction, EnviroSCREEN Enclosures are available in a variety of granite-stone patterns and sizes, as well as multiple colors and styles. Custom sizes are available.

EnviroSCREEN Enclosures are incredibly tough and attractive, manufactured from high-impact LLPDE steel-reinforced panels. Maintenance-free and graffiti-resistant, EnviroSCREEN's never need staining or painting, and will never crack, warp, or fade. Each has superior wind-ratings, able to withstand hurricane-force winds, and also provide 98% sound barrier protection.

A green-friendly product, every EnviroSCREEN is made with recycled material, and is also recyclable.

Installation is simple, achieved by setting posts in concrete, or bolting to the pad.

Proudly manufactured in the United States, every EnviroSCREEN Enclosure comes with a 15 Year Warranty.

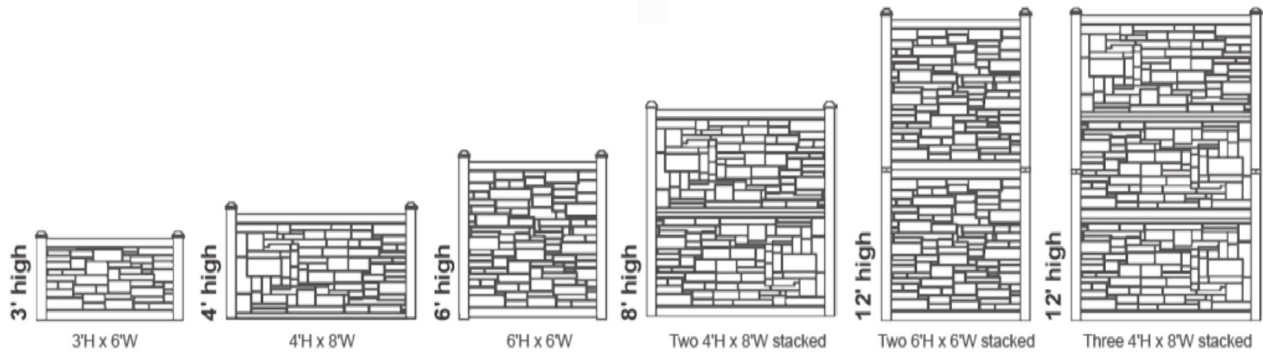

THE NEXT GENERATION OF WASTE ENCLOSURES FROM BINOVA.

PANELS:

- Panels come in 3ft x 6ft, 6ft x 6ft, or 4 x 8ft.
- All panels contain high-grade galvanized steel in both top and bottom rails.
- Panel heights cannot be modified; however, panels can be cut to any custom width.
- Our panels have been engineered to allow stacking to create 8ft, 12ft, and 16ft high walls.

POSTS:

- Posts come in 8.5ft and 12ft heights and have a five-inch outer diameter.
- All posts contain full-length internal, molded, steel stiffeners for optimum strength.
- Posts are made from 50% recycled polyethylene plastic.
- For 12ft and 16ft high projects, we supply metal I-beams with matching plastic post sleeves.
